

KnC AUTOMATIONS LLC

TECHNOLOGY INFRASTRUCTURE. DEPLOYED.

Structured cabling, fiber, network, security and field IT services for government, commercial and prime-contractor projects.

MISSION-FOCUSED TECHNOLOGY SUPPORT

KnC Automations LLC delivers field-deployable technology infrastructure and IT support for government, commercial and prime-contractor projects. We support installations, upgrades, refreshes and troubleshooting through responsive project coordination and scalable field resources.

CORE COMPETENCIES

Structured Cabling - CAT5e, CAT6 and CAT6A installation, moves/adds/changes and infrastructure support

Fiber Optics - Fiber installation, termination and infrastructure replacement/support

Network & Wireless - Network refreshes, equipment deployment and wireless access point installations

Physical Security - CCTV/video surveillance and access-control system deployment

Telecom & Field IT - VoIP/telecommunications support, onsite troubleshooting and technology rollouts

Project Delivery - Technology project coordination, systems integration and scalable field-service support

SELECTED PERFORMANCE

Williams Jet Center | *Commercial aviation client*

Website and digital operations solution including customer-facing services, administrative controls, fuel-price management and ongoing technical support.

Moustache Hookah Lounge | *Commercial client*

Delivered a custom employee-management platform supporting business operations and workflow management.

Sobi Moving / Sobbi Auto Care | *Small-business clients*

Provided technology, web and business-process solutions tailored to day-to-day operating needs.

UltraVenture | *Commercial client*

Supported technology and business-process requirements as part of KnC's growing commercial performance base.

WHY KNC

- 15+ years combined IT leadership experience
- IT project-management experience supporting technology delivery at LMI
- Direct leadership involvement from scope through closeout
- Flexible field staffing for single-site and multi-site deployments
- Southeast focus with extended technician-network coverage
- Lean delivery model built for prime/subcontractor support
